

E X C E L L E N C E
THAT YOU CAN READ...AND SEE...AND SHARE.

*H*OOFCARE & LAMENESS is the leading horse industry resource for information about lameness, and the care of horses' feet. Every issue is filled with practical subjects like foal evaluation, therapeutic shoeing, innovative treatments, or sport/breed hoofcare. Articles are written by many of the leading practitioners in the world and are read by an impressive list of hard-working international farriers and equine practitioners, as well as many breeders, trainers, and owners.

Readers find concise reports from seminars around the world, plus unique details of lameness, anatomy, management, ethics, and conformation not available in any other publication.

High-quality photographs and artwork enliven the factual, to-the-point text on shoeing, medications, management and nutrition aspects of lameness prevention, diagnosis, and therapy.

Hoofcare & Lameness has won 20 American Horse Publications awards, including three for overall excellence in equine publishing.

In the horse world, **Hoofcare & Lameness Journal** is the flagbearer at the leading edge of the farriery and veterinary professions. It is a powerful tool that showcases how important professional oversight and expertise is to the performance and soundness of the world's horses. **Hoofcare** works very hard to provide superlative content and a sense of community for its deserving readership...hardworking, dedicated, and highly skilled people just like **you**.

New subscriptions are welcome at www.hoofcare.com.

Hoofcare & Lameness Journal and hoofcare.com promote a "feet first" approach to equine healthcare! Our goal is to document and encourage excellence by professionals as we help them help horses... and each other.
